

AT THE KENT FAIR

The Exhibits Surpass Those of Last Year.

BIG ATTENDANCE YESTERDAY

In the Races Yesterday Dixie H Won the Flat Race and Bob Thomas the Steeplechase Punt.

The gatekeepers at the Kent county fair yesterday stated that the attendance was greater than on Wednesday one year ago. However this may be, the attendance was large and the attractions in many instances surpass those at the same fair last year.

The stock exhibits, although limited in some lines, are of a superior class. There are a few good exhibits of hogs. Notably among them are those from the Kent county poor farm. Orson Bowen, of Paris, has an exhibit of Poland China and Chester white hogs that are beautiful. The sheep exhibit, although limited, includes some fine bred Shropshires and Merinos.

Among the prominent exhibitors of sheep are Frank Brewer and Joseph W. Puckett, of Gaines; Orson Bowen, of Paris; Charles Chapell, of Allegan county; and Eli Buck, of Paris. The poultry department contains an interesting collection of a good grade of fowls. In this department may be seen partridge, cochin, silver-winged bantams, gamesters, grouse, hens and several breeds of ducks. The cattle department is fairly well filled and the stock placed on exhibition is from the best droves in the county. The exhibition of horses surpasses the expectations of many, the number and class being fairly equal to the exhibits of former years.

A grand cavalcade was formed at the stock stables at 2:30 and headed by the Gaines brass band, consisting of seventeen pieces, marched around the race course. The procession was nearly one-half mile in length and was much admired.

Prominent Horsemen.
Among the horsemen who were noticed in the procession were Frank Brewer of Gaines, Frank Gillons of Byron, William McCordan of Gaines, Thomas Merritt of Byron, Eli Buck of Paris, William Schup of Dor, J. Krieger of Middleburg, Nathan Lind of Gaines, Leland Cornell of Moline, W. W. Pierce of Moline. The horses comprised those of all grades and were shown to the spectators to the best advantage.

The art hall is fairly well filled and the exhibits are from the best business houses in the county. Laces, quilts, paintings and numerous pieces of work of exquisite designs can be found in large collections. Pomological hall has a far better display of fruits and flowers than it had last year.

Fruit Exhibits.
The apples, pears, peaches, grapes, plums and crab apples are from the orchards of the most successful fruit growers. Charles Blain of Gaines has a collection on exhibition comprising 147 varieties. The display made by the Grand Rapids Floral company is acknowledged to be the most extensive and the prettiest of any similar display made at a county fair. Agricultural hall is a pleasant place to visit. Much interest has been taken in making the selections for this department. The vegetables are of extraordinary size and the samples of grain are a credit to Kent county. A few mammoth ears of corn are exhibited by L. D. Allen of Gaines, who takes great pride in his corn crop this year. The canned fruit and baked goods tempt the hungry throngs as they gaze on the good things in their exhibitions.

RESULTS OF THE RACES.
Dixie H Won the Flat Race and Bob Thomas the Steeple Chase.

The races were interesting and exciting. Flat races and steeple chases were presented to the lovers of exhibitions of speed. The starters in the half mile running race were as follows: Dynamite, Waters, Dixie H, Logan; Rob Logan, Taylor, Brigham A, Travis.

The race was for a purse of \$150 divided into prizes of \$75, \$50 and \$25, best two in three. H. W. Davis, Dr. W. F. Penwarden and Dr. J. B. Malcom acted as judges and A. H. Guild was starter.

The first heat was as follows: Dixie H, Dynamite second, Rob Logan third, Brigham A, distanced; time, 3:51. Won by Dixie H.
The second heat resulted as follows: Dixie H, first, Rob Logan second, Dynamite third, Brigham A, distanced; time, 3:51. Dixie H, having won the two heats, was given first money and Rob Logan second. The steeple chase was run over a two-mile course. The following horses started: Rob Thomas, McAliff, Travis, Evangeline, Brown, 124, Leon Pedro, Johnnie, 124, La Blanche, Snyder, 140. The purse was \$300, divided into prizes of \$225, \$50 and \$25. Dixie H took no interest in the race and bolted the first hurdle. The race resulted as follows: Rob Thomas first, Evangeline second, La Blanche third, time, 3:49.

Today's Races.
The races this afternoon will consist of flat and steeplechases. The same horses will be entered in the steeplechase and the course will be extended to two and one-half miles. The running races will consist of a three-quarter mile heat, with the following starters: Dynamite, Little Charlie, Dixie H and Travis. Today is expected to be the greatest day of the fair and a much larger attendance is anticipated. It is showing a satisfactory patronage from the farmers of the southern part of the county and strangers. The Grand Rapids Floral company are the ones who are holding the show and the fair is held are well pleased with their success.

Grand Rapids Floral Company.

An inmate of a Grand Rapids jail, who is a flower man, is making the sentiment of tenderness and refinement that brings us in close touch with all that is noble, pure and beautiful. Such are the impressions given by the beautiful and varied display of roses, carnations, violets and other flowers shown at the Kent county fair by the Grand Rapids Floral company. The exhibit is one of the finest ever seen at any fair ever held here and reflects great credit upon the enterprising gentleman conducting it. In addition to the beautiful flowers they exhibit they show many rare and beautiful plants which are artistically arranged. The Grand Rapids Floral company are well known to send extended notices here but it is due them to say their exhibit proves that they are equal to any occasion or demand for flowers or plants

of any description. No one should fail to see their beautiful display.

NEW KIND OF DIVORCE.

A Young and Outdoorsy Bride Wanted to Get It.

She was a shy young thing, apparently not long severed from her mother's apron strings, and, as she edged her way into the Denver police headquarters, with furtive glances and suppressed voice, the Times says she was a picture worth gazing at. It required considerable clearing of the throat and bracing of the nerves before she could muster up sufficient courage to spin her story.

"Do you know anything about divorces?"

The officer in charge grasped the rail to steady himself. Though used to questions of a thousand hues, he was taken off his guard by that. Besides, he, in the method common to guardians of the peace, had already sized up the girl and jumped at a number of conjectures at her errand. But the crestfallen officer didn't come within several lengths of the bull's-eye. He had supposed that a parent or a brother loomed up in the background of her mission, or, by a chance shot, a lover; never a husband.

Nevertheless he proved equal to the emergency, pulled himself together in gallant style and made a show of knowledge on the divorce problem. The story in a nutshell is this: Married a fortnight or so. Tired of matrimony. Mutual. The spiced hubby of a few weeks' standing had failed to settle wife's board bill. Moral: "Don't you think I could get a divorce because he hasn't paid my board?"

"What good would that do?" persisted the officer, maintaining gravity of composure with great effort. "Then you would have to pay your own bill."

"Oh, that isn't the idea at all," she exclaimed, with a look of pity for his obtuseness. "Why can't I get a divorce from him and compel him to support me until I get married again?"

The officer rushed to the tank for a glass of ice water to check a dizzy feeling that crept down his spinal column, and when he recovered he politely referred the foxy young bride to a divorce lawyer.

SEEING WITH ONE EYE.

Effect of Judgment Trained by Binocular Vision.

A person may see as far with one perfect eye as with two, but he cannot see as clearly; for the advantage that binocular, or double, vision possesses over monocular, or one-eyed, vision is that the former, by allowing the observer to catch sight of the object from two different points of view, gives him at once some idea of the proportions of its different parts.

But though this is true in theory, in practice the judgment interferes, and the judgment has been educated and in some measure rendered independent of the services of binocular vision by experience and the use of other senses, such as touch, says the Washington Post.

Thus a man with only one eye is never deceived as to the nature of an object with which he is well acquainted, for the report of it that he gets from his vision is corrected and supplemented by his experienced judgment and transmitted to his centers of consciousness in as perfect a form as that which reaches those of a man with two eyes.

The advantage of binocular vision may be thus further illustrated: In rapidly dipping a pen into an inkstand or putting a stopper into a decanter the one-eyed man cannot judge so accurately as the two-eyed man. Or, again, if we shut one eye and attempt to plunge the finger rapidly into the open mouth of a bottle we are apt to overreach or fall short of it.

HIS LIFE WAS SAVED.

A Young Man Became Angry Because He Worked Too Hard for It.

"I never hear of anyone being drowned that I don't think of an amusing accident which happened to me once," said Clerk Donald, of the corner's office, while in one of his restless moods the other day to a Philadelphia North American man. "It happened while I was working in the navy yard."

"Let's have it."

"I was working on the stern of a vessel, and I was walking along with a hatchet in one hand and a saw in the other, when I lost my balance and plunged into the river. I didn't want to lose my tools, so I struck out for the shore, and never worked so hard in my life as I did then, for I was working for my life. I plunged and spluttered and pushed until I was near the shore, when my breast struck something, and as I dropped my legs they struck something which I soon found to be mud."

"Didn't anybody go to your assistance?"

"No. They stood on the shore laughing at me, and when I found I had run ashore they wanted to know if they should send for a tug to pull me off. When I made an investigation I found the water was not over four feet deep in the deepest part, and that I could have waded ashore with the greatest ease. I was mad, of course, but after I got on dry land I could see the ludicrous side of the affair, and I have a hearty chuckle to myself every time I think of it now, although it happened a good many years ago."
